

VENVOTRADING

IMPORT - EXPORT

Introduction

The idea of entering the Cuban market was born in 2018
Participants: Ferdi Vollebregt, Jean Linares Reyes, and Wouter Vendel.

Jean was already organizing exports of agricultural products.
We decided: “We can do better — more fairly and with more value.”

Venvo Trading is active in: agriculture, energy, and innovation.

- Goal: Support farmers with knowledge, technology, and fair marketing guarantees.
- Motto: “Growing together, harvesting together.”

Wouter Vendel

Started his career as a car mechanic.
Organized car and motorcycle racing events,
where he met Ferdi. Owned a supermarket
and liquor store for 20 years.

By the end of 2025, he will fully dedicate
himself to importing and exporting essential
products.

Ferdi Vollebregt

Started 20 years ago as an importer of Mactools equipment. Later specialized in solar energy systems and installation of pools and jacuzzis.

Technical and international trade experience. Together with Wouter, he is one of the pillars of Venvo Trading.

Solar Energy Solutions

Products

- Solar panels
- Inverters
- Storage batteries

Benefits

- Lower energy costs
- Independence from power outages
- Clean and sustainable technology.

Soil Treatment and Nutrition

Maxstim

Natural biostimulant for growth.

PK 13/14

Specialized fertilizer for flowering and fruiting. (Available on request)

Results

- Stronger plants
- Higher yields
- Better crop quality

VENVOTRADING
IMPORT - EXPORT

Greenhouses and Agricultural Technology

Affordable plastic greenhouses

Advantages:

- Quick and easy assembly
- Protection from weather and pests
- Higher yield per square meter
- Ideal for vegetables, fruits, and specialty crops

Exporting

In addition to agricultural products, we also supply food items:

- Rice
- Cooking oils
- Powdered milk
- Pasta
- Soft drinks
- Alcoholic beverages
- Meat products

Currently: 2 containers of rice

Custom requests possible:

- Agricultural vehicles
- Tools
- Other products farmers may need

What do you need? Just ask us...

Quality Seeds

Reliable seeds for vegetables, fruits, and specialty crops (e.g., melons, cabbage).
Adapted to tropical climate.

High yields and consistent production

Características

- Reliable quality
- Climate-adapted
- High productivity

Offerings

- High-quality seeds (vegetables and crops)
- Higher yields
- Better disease resistance
- Strong germination and field performance

Modern fertilizers and nutrients

- Tailored to soil and crop
- Optimal growth and yield

Local adaptation and field testing

- “From the local market, for the local market”
- Seeds tested under local conditions

Technical assistance and training

- Support in planting, fertilizing, and cultivation
- Practical advice and field follow-up

Reliable partnership

- Long-term vision
- Fair prices and continuous product development

Collaboration with Zasco

Zasco B.V. is a Dutch company with global presence in agricultural seeds, fertilizers, and technical support.

With offices in Uganda, Tanzania, Morocco, Tunisia, Angola, and China, Zasco has proven expertise in building sustainable agricultural chains in emerging markets.

Together with Venvo Trading, it aims to make a positive impact.

Collaboration Programs

Agreements with farmers:

- Supply of seeds
- Inputs and technical support

Farmers produce according to quality standards. Venvo Trading buys the harvest if it meets the established quality.

Benefits

- Guaranteed market
- Fair prices
- Access to modern technology and knowledge.
